CAN YOUR SYSTEM...

☑ offer matter management, contract management, e-Billing, legal hold, and document management on one integrated platform?

☑ provide complete visibility into matter and spend management data out-of-the box, on day one?

☑ facilitate collaboration between the legal department and other business units through a self-service portal?

LAWTRAC CAN!

<1 yr average payback time

10x ROI over 5 years

5-10% legal spend reduction

75% invoice approval time savings

MITRATECH

LAWTRAC

MATTER MANAGEMENT

Increase legal staff efficiency by 5-10% with flexible legal matter management software at the hub of your operations

- Access all matter information easily
- Speed efficiency gains with a modern and intuitive user interface for high user adoption
- Structure each matter to fit your practice group
- Generate reports quickly and easily with vast library of standard reports

CONTRACT MANAGEMENT

Improve collaboration with business users through end-to-end contracts lifecycle management

- Review, compare, and track contracts with centralized document management
- Check for updates simply and easily
- Track key dates and send automated notifications

E-BILLING

Reduce expenses by more than 5% with automatic invoice review, vendor management, and rate negotiation structure

- Set matter budgets at any time
- Eliminate virtually all billing disputes
- Notify invoice reviewers and approvers automatically

LEGAL HOLD

Mitigate litigation risk while saving attorney time

- Record crucial, auditable data
- Notify custodians automatically
- Monitor compliance with reminders sent periodically through Legal Hold
- Increase efficiency by managing holds in the system of record

DOCUMENT MANAGEMENT

Store documents in a central repository and link to matters

- Index documents fully as soon as they are uploaded
- Allow users instant search capability
- Control versions automatically
- Check-in/check-out capability

SELF-SERVICE PORTAL

Break down boundaries between business partners and the legal department

- Support accurate, consistent, and timely transactional work and updates
- Access relevant information instantly when a contract is submitted
- Provide business units access to the information they need
