WHAT OUR LEGAL DEPARTMENTS SAY

"The concept of Viewabill is a tool that's going to help firms get paid more, not less. If I'm able to get more information, more accrual data, and I can put that into a forecast, I can then budget for more. I can pay my firms more."

Daniel Baker
Senior Operations Lead,

WHAT OUR LAW FIRMS SAY

"We see that when we have a Viewabill client, people are especially cognizant and aware that they need to get their time in. So, that's a good thing for everybody – both us and our clients."

INSIDE COUNSEL	VIEWABILL	OUTSIDE COUNSEL
Simple sign-in to a web portal	Secure sharing of time entries and accruals in near real-time	Time and billing system integration

HOW IT WORKS

- Access a **cloud-based solution** that shows billable activity as it happens
- Send **secure messages** about your matters to your outside counsel within Viewabill
- **24/7** view of work-in-progress metrics and time entries, access accruals on demand
- Receive **automated alerts and email notifications** around billing activity
- Integrates with major **law firm time and billing systems**, including Aderant, TR Elite, FreshBooks, and Intuit

WORK AND COLLABORATE WITH YOUR LAW FIRMS

- **Update matter budgets in near real-time** without the need to e-mail or send requests to outside counsel
- **Communicate with outside counsel** while your memory is fresh. 'Ask a Question' or 'Request Pencils Down' from your Viewabill instance
- Work easily from a **single summary screen**; roll up everything for high-level insight or drill down into the individual matter or time entry
- **Receive alerts** when bad billing practices and abnormal time entries occur

REALIZE TANGIBLE SAVINGS

- Have near real-time insight into accruals and track hours before they get out of hand, so you can **manage your budget**
- **Increase staff efficiency** by reducing e-mail communications and calls to your outside counsel
- Learn which attorneys are **most active**, and which matters are **most expensive**, and **set smart alerts** to stay informed on the go
- Identify trends such as block billing and time entry delay and use it to **optimize your selection of law firms**
